Recent Operations

By Paul Rardin

In a special article sent out by the Commission of Game and Fresh Water Fish I see where Glades, Collier, Hendry and Lee counties will be closed to my hunter friends after the thirty-first of December. This isn't going to go over very big with a lot of the boys who get a big kick out of their after Christmas trips into that favorite hunting territory. But, that's what the commission says and I think maybe we'd better stick pretty closely to their ruling.

After several games played away from home Coach Frank Hobson's Pahokee foot ball warriors return to Lair field tonight for an encounter with Fort Lauderdale. I find that the fans in Pahokee haven't seen the Lauderdale team in action this season and what the outcome is going to be is a little doubtful. Our boys eased over to Vero Beach last Friday night and came home with another victory. They won by six points. And after all a six point margin is a six point margin.

I'm going to pick my bean crop today. It is coming off just six days ahead of schedule but that is all right since I have made arrangements for a broker to handle my offerings. If the yield is as much as I calculate it will be and the price is near what I am hoping for I should show a profit of over 200 per cent on my investment. I've made arrangements for pickers and everything that goes with harvesting a bean crop and from here I can't see where the hitch is going to be. Maybe it will rain all day today. Then I'll have to make other arrangements. I've been figuring how many Christmas presents I can buy with the money and when I start figuring that I think about the rent being due on that new car. And that brings on more talk. Anyway, a half acre of beans should make a big harvest.

In my rounds this week I find that N. N. Starling in Belle Glade is back on the job and making things ready for another season. His efficient bookkeeper, Mr. Smith, is back in the office and has things shining again. P. C. Keesee's office is open and his packing platform has been busy. I think they graded the first car of beans that went out of the Glades this season. Thurmond Knight is busy at the Tropical platform in Belle Glade getting everything in ship shape. I nearly forgot to mention an addition that the Keesee concern is making to its packing house. The office is short with Mr. Ball again on the job. Work is going along on Pop Lord's packing plant and a large increase in floor space will be available when it's done. H. H. Wedgeworth and his crew at mes are mighty busy building what looks to me will be the biggest packing house in the Lake region. Then out at Pelican Lake the new packing house of the Frank Johnson company is nearly ready for use. I believe the boys plan to open it about the 20th of the month. In Canal Point the new plant being erected by W. A. Brandon is going along in a rapid manner. Framing is up and workmen will be placing the sheet metal before long. Sam Chastain is building a new house in Canal Point and already the piling are down and workmen will be busy in the next day or two cutting framing. The Lake Shore Supply will be ready within a day or two to receive vegetables at the Cardwell plant. I've noticed a group of fellows working there pretty steadily for the past week or ten days. Many improvements are being made and with the start of the season they'll be ready to go. Bill Cochran's packing house between Canal Point and Pahokee has been completely remodeled and three grading belts have been installed.

Some day when I get a lot of extra time on my hands I'm going to make a trip around to all of the packing houses and then I'll tell you where they're located and who is in charge of each one. Here lately they've been building them so fast that I can hardly keep up with them. I do know one thing every packing house that is erected in the Lake region means just that many more grading belts and grading belts mean that graders must be employed to handle them. Naturally employed graders make bigger and better payrolls in our

(Continued on Page 3)

Price Holds At $1 For Beans In Glades Area

Labor Shortage Is Another Worry of Lake Region Growers

During the past week beans in the Lake region have been bringing satisfactory prices and growers have been realizing from $1.00 to $1.50 per hamper for their offerings. However, some second pickings brought as little as 75 cents per hamper. Shipments have been extremely light during the week but it is thought that with the beginning of next week heavier shipments will be going out.

With the advent of heavier pickings next week the growers are going to be faced with a labor shortage unless many hundreds of pickers arrive in the Lake region over the week end. Mayor John Dulany of Pahokee and Mayor R. K. Harris of Belle Glade are making a determined effort to get that negroes who are employed in the Glades during the season get past the officers at the state line. Vagrants are being turned back by state officials but negroes who are planning to pick beans in this section are being allowed to proceed, the officials pointed out.

As colder weather hit the northern states this week growers in this section felt that their product will be bringing more money within the next few days. This year's early crop will begin to move in heavy quantities next week and naturally farmers are hoping for profitable returns.

A year ago today these columns chronicled a story of a flood out in the Lake Okeechobee region in which more than 50 percent of the beans were ruined. To date this year we have had several inches more rain already recorded than at the same time last year.

First Checks Sent Out For Florida's Aged

State Is 41st to Qualify Under Social Security Act

Florida finally has $145,457.66 of federal funds to show that she has been formally enlisted as the 41st state of the union to qualify for old age assistance under that title of the Social Security act.

This announcement was made by R. C. Unkrich, business manager of the State Welfare board, who said that he had been formally notified by Welfare Commissioner Conrad Van Hyning from Washington that the Security board had passed its final approval on the plan and had issued an order on the United States Treasury for the federal government's share of the funds to match the individual appropriations of Florida's 67 counties.

"This means," Unkrich stated, "that the first checks were mailed from Jacksonville Tuesday direct to the recipients, and that they should have been received Thursday. It must be clearly understood, however," he added, "That because of the rush of getting these first checks out, not all of those persons who have been approved by the district boards are eligible for old age assistance will receive their checks in the first mailing. As soon as the payrolls from the 12 districts are received in this office our disbursing staff will prepare the checks and get them in the mails."

Unkrich said that the staffs of the 12 district boards were hard at work making investigations of

(Continued on Page 3)

Zephyrs Will Be On Display Soon

Residents of the Lake region will have opportunity soon to view first hand the new Lincoln Zephyrs, according to B. Elliott, Pahokee Ford and Lincoln dealer. Mr. Elliott stated this week that he has purchased several of the new models and plans to have them on display within the next few days. The new models were brought out recently by the manufacturer and have been shown in Jacksonville, the local dealer said.

McIlwain Added To Personnel of Bank of Pahokee

E. F. McIlwain, formerly of Wauchula, became an employe of the Bank of Pahokee this week, coming to his new duties on Wednesday morning. His family will come to Pahokee within the next few days, he said. Mr. McIlwain has been employed in the Wauchula State Bank and is experienced over a period of many years in the banking business.

BPWC Will Hold Regular Meeting On Tuesday Night

The regular meeting of the Everglades Business and Professional Woman's club will be held next Tuesday night at the Pahokee Woman's club, it was announced yesterday by officials of the club. The publicity committee is in charge of the meeting and an interesting program has been arranged for the evening. Members are urged to be in attendance.

Ft. Lauderdale Plays Pahokee On Lair Field

Coach Hobson Looks for Tough Battle with Visiting Aggregation

Tonight at 8:15 on Lair field in Pahokee the Pahokee Blue Devils will meet the fast aggregation representing Fort Lauderdale high school. Coach Frank Hobson stated early this morning that he expects a tough battle tonight and would not predict the outcome of the encounter.

The starting line up for tonight will be as follows: Tuffy Sapp, left end; H. B. Baxter, left tackle; I. J. Frasure, left guard; Kenny Mock, center; Dell, right guard; Beardsley, right tackle; Redditt, right end; Wolfe, left half; Snooks Spooner, right half; Captain Daane, fullback and Fred Sapp at quarter.

Joe Tom Boynton, son of Mr. and Mrs. Grady Boynton of Canal Point, who won for himself a berth of Coach Hobson's team this year, will be out for the remainder of the season on account of illness, the coach said this morning. Joe Tom has been an important part of the passing combination and the Blue Devils will miss his services in the remainder of the games this year. Coleman will also be out for several games the coach said. He is suffering from a sore knee.

The Blue Devils journeyed to Vero Beach last Friday night and defeated the eleven of that city by a score of 6 to 0. The Pahokee squad tallied their marker in the second quarter as the result of a passing attack. The score was made on a pass from Fred Sapp to Tuffy Sapp.

LOBDELL TALKS TO GARDEN CLUB

New Organization Has Interesting Meet at Home of Mrs. E. L. Pope

An interesting and enthusiastic meeting of the Community Garden club was held on Tuesday, Oct. 13, at the home of Mrs. E. L. Pope with Mrs. R. G. Johnson, Jr., as assistant hostess. The president, Mrs. H. M. McIntosh, presided.

After the business session, the meeting was turned over to the program chairman, Mrs. R. T. Gibbens, who in turn introduced the speaker of the afternoon, R. N. Lobdell, Entomologist at the Belle Glade Experiment station. Mr. Lobdell discussed in a most practical and informal manner what one should expect in rose plants as received from the nursery, their treatment upon arrival, method of planting in the Glades, and their care and culture. He also recommended a list of climbing and bush roses for cutting and for garden display. His discussion was of great interest and value to those in attendance.

Refreshments were served to the following: Mr. R. N. Lobdell, Mesdames G. C. McLarty, H. M. McIntosh, Frank Bass, L. L. Stuckey, J. S. Chastain, C. J. Lovvorn, George Kingsley, J. V. Fourny, G. L. Sims, J. W. Barrett, L. C. Goolsby, George Belk, E. L. Pope.

(Continued on Page 3)

Control Method Given for Leaf-Rollers on Beans

Though they do some damage almost every fall, bean leaf-rollers are being found in Glades bean fields in unusually large numbers and growers have asked the Everglades Experiment station near Belle Glade for a control method. The insects now present will decrease the yield in infested fields and a next brood, unless controlled by natural or artificial means, may cause serious defoliation of the plants over a wide area. R. N. Lobdell, of the Experiment station, offers the following control method:

Use small cuts or in the home garden it is often, because of wind or lack of equipment, more convenient to use a spray than a dust. In such cases 12 ounces of powdered arsenate of lead (not more for fear of leaf burn) should be mixed smooth with a small amount of water, then washed through a fine wire screen into a 50 gallon barrel. Then in the same fashion mix and wash in one pound of hydrated lime. Add enough more water to make 50 gallons and spray the plants well when the sun is not too hot.

Where a dust is to be used arsenate of lead will be found to be the most effective poisoning agent but because of the danger to man it can not be applied to beans with safety where the pods are past the pin bean stage. However, where an arsenical can be used, the owner, because of the certainty of some leaf injury from the poison, should plan to keep the amount of arsenate of lead applied per acre to not more than 5 pounds. This amount will give excellent kill of even the large worms. A much less amount has been good kills where the worms were all small.

The amount of carrier or diluant used can vary with the method of application. Where the hand duster is the only means of application available it is hard to keep the rate of application under 40 pounds per acre. In this case use 10 pounds of arsenate of lead and 30 pounds of carrier. This carrier may be bentonite sulfur which sticks well or any 300 mesh dusting sulfur. Where sulfur is not needed to fight young white flies or mold then fuller's earth is cheap and serves the purpose. Hydrated lime of a dusting grade may be used, but will cause some injury as will sulphur but this will be less than the benefits secured where sulfur is needed on young plants.

Where a power duster is pulled by tractor or an aeroplane is used to apply the dust the amount of carrier may be reduced to 85% or 80% upon determining how much dust is to be applied per acre. A convenient amount is often 25 pounds which would make a formular of 20 pounds of arsenate of lead and 80 pounds of carrier. It does not seem advisable to reduce the amount of carrier to a less percent than this as tests of dusted fields show a tendency of the lead to segregate out in falling, and it is worth while paying a larger fee to have the trips across the field made closer together. They certainly should not be further apart than 100 feet for good results. Because of the slowly settling dust cloud it is a good plan to have the block gone over at 200 foot intervals then a second going over made half way between the first lines. The lines of flight can be marked by poles and flags. Tests have been made upon combining manganese with dusts and spray combinations with arsenate of lead but can not be reported upon at this time.

After the beans begin to mature dependence must be had upon the rotonone dusts. These, on the whole, have proven quite unsatisfactory against the larger stages of this insect. The frequently suggested concentration of ½ of 1 percent has not given good kills of any but young worms. It has been practically pure ground pyrethrum and derris powders (about 4% rotonone content) to kill large worms but the material used may not have been fresh and so have lost a portion of its strength. The moral is: kill the worms on your beans before the vines are in bloom and so save later trouble for yourself and for your neighbors. The skippers (long tailed butterfly-like insects) are fairly strong flyers but seem most attracted to the nearest field of succulent bean vines.

Fungicides Suitable for the Protection of Glades Crops

(By G. R. Townsend, Everglades Experiment Station, Belle Glade.)

The Everglades Experiment station has conducted trials of fungicides for seed and soil treatments and for spraying over a period of several years. It has been found that for certain purposes a number of fungicides fully meet the requirements for protection against fungous diseases. A tabulation of the proper fungicides and methods of treatment for various crops is given below. Only those treatments which have been fully tested are listed here. New products are constantly being introduced which need to be tried experimentally before they are used generally. Growers are advised to rely upon tested standard fungicides rather than to risk the use of new material of unknown value.

BEANS: No method of seed treatment has been sufficiently tested to be recommended. Semesan has sometimes increased germination.

To protect beans from mildew and red rust it is necessary to apply sulphur dusts. Twenty to thirty pounds per acre of a finely ground pure sulphur, or bentonite sulphur should be applied. This will be adequate to control mildew, and reduced the loss from red rust. Applications must be made preceding the development of heavy infections, and should not be made after the vines are in bloom. Copper sprays and dusts are ineffective for the control of these diseases, but sometimes benefit the plant through nutritional effects. The bacterial blight diseases can not be controlled with fungicides.

LIMA BEANS: Treating lima bean seed with red copper oxide reduces the loss from seed decay. The seed should be dusted with red copper oxide at the rate of four ounces per bushel of seed.

Limas may be sprayed with basic copper sulphate, copper hydroxide or sulphocide sprays. Bordeaux mixture frequently injures lima beans and its use on them is not advised.

PEAS: The decay of pea seed and damping-off of the young seedlings can be prevented by treating the seed with Semesan. Two to four ounces of this dust should be applied to each bushel of pea seed.

POTATOES: For early fall planting, seed potatoes should be given the formaldehyde and ethylene chlorohydrin treatments. The former prevents seed piece decay and the latter hastens the sprouting of green seed.

The formaldehyde treatment should be made before the seed has been cut. A solution containing one quart of formaldehyde in

(Continued on Page 3)

Four Counties Will Be Closed On Dec. 31st.

Hendry, Glades, Collier and Lee Will Be Closed to Hunters

A ruling handed down by the Commission of Game and Fresh Water Fish states that Hendry, Collier, Glades and Lee county will be closed to hunters after December 31, 1936. This ruling affects all hunting in these counties and the commission offers some excellent reasons for its ruling.

The territory embraced in the four counties has been "shot out" in recent years and flood conditions that prevailed during the spring and summer caused a great loss in the quail crop. The territory mentioned is undoubtedly the most prolific quail breeding ground in Florida. It is a natural prairie and pine timber country with plenty of palmetto growth, mostly flat woods but with many hundreds of acres of high ridges.

Ten years ago, before the build-

(Continued on Page Three)

Rotarians Hear Interesting Talk Regarding China

Yesterday's International program at the weekly meeting of the Pahokee Rotary club gave members an opportunity to hear an International address when Wokee Lou, of West Palm Beach, was the guest speaker. The visitor was introduced by Joe Kahn, chairman of the International committee. Mr. Kahn also presented Mrs. Browning Roach and George Goldberg in a musical interlude with Mr. Goldberg playing two selections on the violin, accompanied at the piano by Mrs. Roach.

Yesterday was probably the first time that a native born Chinese has addressed the Pahokee club and all members were greatly interested in the message the speaker brought. He is a graduate of Cornell University and an interesting speaker. He stated that Chinese in their native land regard Americans as true friends and pointed out many reasons why his fellow countrymen think thusly.

Guy Bender of Belle Glade was the only visiting Rotarian.

South Florida Conservancy Improvement Association Adopts Charter At Meeting

At a meeting held in the school house Tuesday night members of the South Florida Conservancy Improvement association adopted a charter under which the group will function in the future. H. H. Wedgeworth served as chairman of the meeting.

Herbert D. Beck read the proposed charter. It was decided that all landowners, whether or not they lived within the confines of the South Florida Conservancy district, are eligible for membership. It was decided that each director should live within the boundaries of the district, with one elected for each of the five pumping units and four chosen from the membership. Temporary directors will be appointed to serve at the next meeting. C. M. Larrick, R. Y. Creech and Fritz Stein were appointed as a nominating committee.

Charter membership is available until the next meeting of the association on November 10. A membership committee was appointed, consisting of Mr. Kirchman, Chosen unit; Mr. McDuffy, Bare Beach unit; Mr. Larrick, Lake Harbor unit; Mr. Bass, South Bay unit; Mr. VanLandingham, Hillsboro unit, and Roscoe Braddock and Mr. Creech, members at large.

Oratorical Barrage Under Way By State Democratic Leaders

Democrats Make Intensive Drive To Elect Ticket

Alarmed at Prospect of Heavy Republican Gains In the State

JACKSONVILLE, Oct. 15 — (FNS)—The Democrats of Florida are better organized now than they have been for years and will go to the polls almost 100 percent strong on Nov. 3, according to reports reaching state campaign headquarters.

Alarmed at the prospect of heavy Republican gains, due to liberal expenditure of money and to some dissatisfaction within Democratic ranks, the State Executive committee is putting on an intensive drive that is beginning to get results, according to C. C. Codrington, state campaign director, who stated:

"I believe that we will put over the entire ticket, from president to constable. I am sure that we will, if interest upon the part of the rank and file, and activity upon the part of leaders, continues to grow at the pace that has been evident for the past ten days. Of course, if the Democratic voters remain away from the polls, especially in west Florida, where the Democratic is so well entrenched, the result might be different.

"The major objective now is to give the national ticket an overwhelming vote of confidence. If Florida fails to roll up a huge lead for the New Deal its representatives will be embarrassed when they go to Washington for future favors."

The speaking campaign, vigorously conducted by Fred P. Cone, gubernatorial nominee, Judge C. O. Andrews and Claude Pepper, senatorial nominees, aided by five nominees for congress, is being featured by big rallies, long motorcades and huge turnouts. The candidates are being aided by nearly 100 volunteer speakers and it is planned to lay down an oratorical barrage from now on that will thoroughly shell the woods from Escambia to Monroe.

The Young Democratic clubs of Florida, who recently named de-

(Continued on Page 3)

All-Time Record In Florida For Registrations

Democratic Leaders On the Stump As Day of Election Nears

TALLAHASSEE, Oct. 15 (FNS)—Floridians, 400,000 strong, have qualified as voters in the November elections, establishing an all-time record for registrations within this state, according to observations of political analysts this week following the close of state registration books.

Races for the presidency of the United States, the governorship of the state of Florida, and one seat in the United States senate, now occupy the spotlight of Florida politics at the climax of a political year which has added surprise to surprise and complexity upon complexity since its inception with the primaries last June. At that time Democratic strength in the state polled a new record of 328,749 votes in nominating a governor from a field of 14 entries.

Though President Roosevelt received 242,906 votes in the preferential vote of June 2, seven Republican candidates for presidential electors who would vote for Landon, are grimly opposing seven Democratic candidates whose votes would go for the re-election of Roosevelt. In the race for Florida governor, E. E. Calloway of Lakeland and Fred P. Cone of Lake City carry the respective banners for the Republican and Democratic parties.

With Claude Pepper, Tallahassee Democrat, unopposed in his political race, Judge C. O. Andrews and Howard C. Babcock, though fellow townsmen of Orlando, are waging a vigorous battle from their places on opposing party tickets for the remaining Florida seat in the United States senate.

Republican candidates challenge three Democratic nominees for congress: J. Hardin Peterson, Democrat of the First District is opposed by B. L. Hammer. J. Mark Wilcox, Fourth District Democrat is faced by Thomas E. Swanson, Republican. In the Fifth District, Joe Hendricks,

(Continued on Page 4)

Lake Region Will Be Served By State-Wide System of Power Co.

WILL TO OPEN PAHOKEE PLACE

Lawrence Will, proprietor of Pioneer Service station and Pioneer Motor Sales company in Belle Glade, announced this week that he will open headquarters in Pahokee within the next week or two for distribution of Plymouth and Dodge cars and Allis-Chalmers tractors. R. L. Murray, sales manager of the Pioneer concern, will be in active charge of the Pahokee offices, Mr. Will said.

The building formerly occupied by the Pahokee Repair shop is being remodeled and will be used as the new location for the Pahokee business. Mr. Will stated that he will maintain his repair shop in Belle Glade and also a sub-agency for the distribution of the two popular brands of cars.

High-Voltage Transmission Line Being Built Into Glades Area

The spectacular growth and development of the farming section around the southeastern shore of Lake Okeechobee is to be marked with another step forward as a result of announcement by Florida Power and Light company that it will spend approximately $124,000 in the construction of a high-voltage transmission line that will connect its independent isolated system now serving this territory with its state-wide interconnected system. This improvement and the completion of State Road No. 26 to Ft. Lauderdale and Miami is another stride in the continued advancement to which the area now looks forward.

As a result of the interconnection with the state-wide system there will be available an almost unlimited supply of energy to meet the demands of future development and in addition the service will be protected by the maintenance of the generating plant near Pahokee as a stand-by station, available for service on almost instant notice should an emergency arise.

Early in 1928 Florida Power and Light company was attracted to the territory and foresaw, in a measure, its growing importance as a farming community. By the end of that year they had installed 160 KW generating capacity and constructed lines to serve customers in Pahokee and Canal Point which at that time had a population of less than 1,000. Now the population of the communities served by the company in the area is more than 7,500.

The company has constantly added to and increased its facilities as the demand for service developed until it now has lines running around the southeastern shore of Lake Okeechobee from Belaire to Lake Harbor and Bean City and its 1928 plant capacity has been increased to almost ten times its original size.

The development of the rich farming area around the Lake has justified the company's confidence. Almost immediately after the devastating storm of 1928 with its

(Continued on Page 4)

Hudson Opens New Vegetable Market

G. V. Hudson opened a new vegetable market in Canal Point last Saturday morning and is more than pleased with the response from the many housewives of Canal Point. Mr. Hudson's new market is located in a new structure just north of the Coburn Hardware store. A full and complete line of fresh fruits and vegetables is being carried by the proprietor and he invites his many friends to visit his establishment.

UNPAID TAX COLLECTORS

In Florida, there are several thousand unpaid tax collectors. These tax collectors are the operators of 7,069 filling stations in the state.

Paying all the ordinary license and ad valorem taxes which other business men pay, these operators collect a state tax of 1c and a federal tax of 1c per gallon on gasoline—the total tax being the equivalent of a 50 per cent retail sales tax.

This 2c tax is twice as much as the 2c gross profit made by the filling station operator on the sale of a gallon gasoline. A credit loss on one gallon to these operators means that they have to sell two gallons more to recoup the tax lost—without even taking into consideration the cost to them of the gasoline.

During the fiscal year ending June 30, 1936, this unpaid group of tax collectors collected from their customers, the motorists, $18,706,341 in state gasoline taxes alone in addition to the federal tax collected.

In other words, the average tax collected by each of the 7,069 service stations from their customers during the past fiscal year was $2,647. In addition, all the stations collected in behalf of the federal government an aggregate gax tax of more than two and one-half million dollars.

THE EVERGLADES NEWS

THE EVERGLADES NEWS PUBLISHING COMPANY, Incorporated

AN INDEPENDENT NEWSPAPER

ISSUED EVERY FRIDAY

Entered at the post office at Canal Point, Fla., as second class matter

KEATHLEY BOWDEN, Editor and Manager.

PAUL RARDIN, Managing Editor.

We can think of several ways to advertise Florida without using a motorcycle escort.

Growers of the Lake Okeechobee region are wearing smiles as beans sell for $1 or more per hamper each day.

Most any hour of the day you can tune in your favorite station and hear a political address. Wonder who thinks up all those speeches?

Will the Lake region celebrate Armistice Day? We should never forget the boys who made the supreme sacrifice upon the soil of foreign countries.

Florida has seven votes in the electoral college. There are 531 electoral votes in the United States and a presidential candidate must receive 266 to be elected.

Democratic rallies are being held throughout the state in an effort to interest the people in casting a vote. Are you registered and ready to make your X opposite the name of the man of your choice?

Nearly four million people visited the Florida exhibit at Cleveland. Hundreds and hundreds of those visitors will spend several weeks within the confines of our state this season as a direct result of this efficient and worthwhile advertising.

Things are fast returning to normal. Russell Kay has returned from Cleveland and is again on the job at his Florida News Service office in Tampa. Mr. Kay is secretary of the Florida Press association and one of the busiest men of Florida.

Payments were started this week on the Old Age Assistance plan. Checks ranging in size from $5 to $30 have been mailed out. Those in charge of the work ask that applicants bear with them until all details of the plan can be worked out satisfactorily for all concerned.

The Community Garden club recently organized in Canal Point and Pahokee is getting away to a good start. Excellent speakers have appeared before club members at their first meetings and plans are being made for an outstanding program of work during the coming season. Ladies of the organization, who are giving their time to its perfection, are to be complimented upon the splendid work they are doing.

More meetings of the kind held last Thursday by the Pahokee Rotary club should be the order of the day. It was a special occasion and each Rotarian invited a farmer guest to hear an educational address, delivered by W. T. Nettles, district agricultural agent with offices in Gainesville. Mr. Nettles spoke interestingly of farming and soil conservation and drove home his points in an individual manner. Farmers and Rotarians were loth to leave at the conclusion of Mr. Nettles.

LEGAL NOTICE

Resolution adopted by Board of County Commissioners of Palm Beach County, Florida, at its meeting held on October 14th, 1936.

Upon motion of Commissioner Prince. Seconded by Commissioner Byrd, and motion unanimously carried, the following resolution was adopted:

BE IT RESOLVED that the following named persons whose names appear upon the Registration Books of the County, who have died, removed from the County or removed from one election district to another in the county, or whose names appear more than once upon said books, or who are otherwise disqualified to become electors in General Elections, be, and they are hereby stricken from the Registration Books of the County;

BE IT FURTHER RESOLVED that this list and resolution shall be published according to law.

BE IT FURTHER RESOLVED that any person whose name has been erroneously stricken shall file his objection thereto in writing with the Clerk of this Board, on or before ten(10) o'clock A. M., 23rd day of October, A. D, 1936. Such list of stricken voters is as follows:

SPECIAL NOTICE:

It is called to our attention, by some of our good friends, that passing rumors indicate that we are financing certain packing operations and this is to notify our customers and the community at large, that any such rumors are ungrounded and are absolutely untrue.

It is our aim at all times to direct our efforts for the benefit of our customers and the farming trade as a whole, and we have not nor will not enter into any deal that will tend to place us in competition with our trade.

We Invite Investigation At All Times

A Body Builder

Miss Kathern LaNair of 443 Barnard St., Savannah, Ga., said: "A few years ago I lost weight, through poor appetite. Mother gave me Dr. Pierce's Golden Medical Discovery. I began to feel better when I had taken the tonic only three or four days. Then my appetite and digestion improved, I took on weight, my whole body seemed to tingle with health and I felt perfectly well." New size, tablets 50c., liquid $1.00 & $1.35.

SOUTH BAY NEWS

C. P. Hooker of West Palm Beach was a business caller here Saturday.

L. J. Cowen spent several days last week in Miami visiting his daughters.

The Franz warehouse to be occupied by Wilson & Toomer Fertilizer company was completed Monday.

Miss Sara Cowen, daughter of Mr. and Mrs. L. J. Cowen, has gone to Miami where she has accepted a position.

Mrs. E. Wilks of Hahira, Ga., is spending several weeks with her sister, Mrs. L. J. Walters, and family while Mr. Wilks is in Okeechobee City on business.

Clayton Miller of West Palm Beach spent the week end with relatives here.

The marriage of Miss Mary Challancin, youngest daughter of Mr. and Mrs. John Challancin, to Julian Clark was an event of Saturday.

R. G. Fisher has returned from Des Moines, Iowa, where he has been visiting his family for the last six weeks. Mrs. Fisher, Barbara Jeanne and Russell, Jr., are making an extended visit to her parents there.

Mrs. Helen McMullen has returned home convalescent from a recent major operation at the Good Samaritan hospital in West Palm Beach.

R. D. Hawkins, who has the contract for the new home of Mr. and Mrs. E. M. Willits on Lake Avenue, started work on it Tuesday.

C. E. Thomas of Ritta Island transacted business here Saturday.

Robert Munn of Stilson, Ga., who was an employe of the Lake Shore Supply company, here several years ago, is visiting his sister, Mrs. G. L. Miller, and family for a few days.

Nellie Greynolds of West Palm Beach is visiting Miss Della Revells at Bare Beach this week.

Mr. and Mrs. F. B. Willits, Miss Irene Dawson and Mrs. J. W. Rashley attended the teachers' reception given by the Pahokee Parent-Teacher association Monday evening.

Mr. and Mrs. Alvin Graff and two children of Austin, Minn., have arrived to spend the winter with Mr. and Mrs. C. L. Hayes.

Jesse Barnes and Alonzo Cooper made a bicycle trip to West Palm Beach Saturday.

Oren Miller of Miami visited his sister, Mrs. C. B. Higginbotham, over the week end.

Mrs. G. W. Lewis spent the day on Sunday with her daughter, Mrs. W. L. Cunningham and family in Belle Glade.

Mr. and Mrs. S. J. Fisher and Mrs. Helen McMullen motored to West Palm Beach Wednesday for medical attention.

Mrs. Nora Hammond of West Palm Beach is visiting her daughter, Miss Bernice Hammond, this week.

W. H. Rawle, Betty Rawle and Elsie Mae Willits motored to Miami on Saturday to visit Miss Louise Rawle, a surgical patient at the Jackson Memorial hospital, she is reported to be somewhat improved.

FUNERAL RITES FOR W. W. HUNT

Services for W. W. Hunt, native of Pickens county, Georgia, who died of heart failure at the home of his son, W. L. Hunt, in Bare Beach Saturday morning were in charge of the Everglades Funeral home. Interment was made at Port Mayaca. Mr. Hunt was 71 years of age, having been born in 1865. Coming to Florida some 25 years ago. Other children surviving are Ernest G. Hunt of Huntsville, Alabama and Mrs. E Kemp of West Palm Beach.

Such a Waste of Energy

Ann—It makes me so mad to think that I walk in my sleep.
Nell—Why?
Ann—Why? When dad has three cars I can use any time.

SEES NEW CAR

DETROIT—"I was just fortunate enough to get an advanced look at the new 1937 Dodge," says Eugene B. Meek. "If everybody talks like I did, millions will want to change to Dodge this year. Dodge certainly gets my vote for giving America such a big, economical car at such a low price."

Get Rid of Poisons
Produced by Constipation
A cleansing laxative—purely vegetable Black-Draught—is the first thought of thousands of men and women who have found that by restoring the daily movement of the bowels many disagreeable symptoms of constipation promptly can be relieved. Mr. J. T. Hatcher, of Clifton, S. C., writes: "I have found that Black-Draught is very effective in the cleaning of the system. When affected by the dull headache, the drowsiness and inaction caused by constipation, I take Black-Draught." A natural, purely vegetable laxative.

Lobdell Talks

(Continued from Page One)

R. G. Johnson, Jr., R. T. Gibbens, W. C. Young, C. G. Coburn, J. M. Elliott, Grover Poole, John A. Dulany, A. R. Chastain, W. T. Jernigan, D. C. Thompson, A. H. Hansen, J. S. Harrington, Carl Kolstad, A. Q. Howell, A. H. Dalton, T. L. Sellers, A. W. Fowler, V. C. Denton, Dan Dechman, A. L. Pope, B. Elliott.

The third Tuesday of each month from October through May has been selected as a regular meeting date. The next meeting will be held November 17 at the home of Mrs. H. M. McIntosh, with Mrs. Frank Bass co-hostess.

Canal Point Club Will Meet Monday

The Canal Point Woman's club will meet in regular session Monday afternoon, October 26, at 3:30 o'clock. Several important matters will come up for discussion and all members are urged to be present.

Junior Chamber To Have Regular Meet On Tuesday Night

Regular meeting of the Pahokee Junior Chamber of Commerce will be held Tuesday night in the American Legion pavilion, according to announcement yesterday by officials of the organization. Many new committees have been appointed by State President Chas. A. Mitchell and it is important that all members be in attendance.

Average	91	74 1/7	0.85
Total rainfall since Jan. 1, 1936			52.14

Four Counties

(Continued from Page 1)

ing of accessible hard roads, the territory was alive with game of all kinds. Hunters from all parts of Florida have absolutely "shot out" the entire vast area and the action of the state commission in closing the season on Dec. 31 has been accepted as a wise one, and a protection to the diminishing supply of game.

The five-week open season in this territory will be further curtailed by natural hazards. Few hunters have been able to successfully invade that country on account of water and muck after leaving the hard surfaced roads.

A survey by the conservation commission says that a good supply of quail, and turkey will be found this year in those sections where stock had not been shot down too low.

The sportsmen are urged to bear in mind daily bag limits on all game; quail 15, ducks 20, turkeys 2, squirrels 5, deer 1, and to strongly adhere to the same. The fact that a man may plan to hunt but once or twice a season is no reason or excuse for overshooting a day's bag limit. It is against the law.

The general hunting season in Florida opening November 20th closes on deer December 31; does January 31; and other species of native game February 15.

Special attention is called to the following exceptions to the general hunting season:

Collier, Glades, Hendry, Lee — Closed to all hunting after Dec. 31 (for season 1936-37.)

Recent Operations—

(Continued from Page 1)

section and bigger and better payrolls make business better. So on and on.

Beans have been selling around $1.00 and $1.25 this week and farmers who are picking at this time are happy. I remember last year at this time about fifty percent of the early crop was affected out. To be exact a year ago today we carried the story about it. And then on December 1 along came that frost. Anyway, we got by the fifteenth of the month without any heavy rains and old timers have been anxiously awaiting that date for you see we got a new moon today. That has something to do with the rain but your guess is as good as mine.

I walked into the Bank of Pahokee one morning this week and there was an old friend of mine to greet me. Gene McIlwain, formerly of Wauchula, is a new employee of that institution and you're going to like Gene when you get acquainted with him for he is a prince of a chap. His family will move to Pahokee within the next week or so.

Democrats Make—

(Continued from Page 1)

legations to appear before the various boards of county commissioners and urge them to list the names of Democratic electors and other candidates alphabetically at the top of the ballot, have rendered another splendid party service during the present week. They have raised funds for a series of page advertisements in the interest of the Democratic cause, and there are now beginning to appear in the press of the state. The number of advertisements to be inserted will depend upon the success of the Young Democratic clubs in the individual counties in financing what is termed at headquarters as a master publicity stunt. Copy for the advertisements is prepared here and is uniform. O. D. Williams, well known Jacksonville advertising man, was named as chairman of the advertising committee after he had volunteered his time and talent, for the next nine months or until the next state legislature meets, after then, he said it would be necessary for the state to appropriate its share of the money for the matching of federal funds.

"This of course can only be possible," he concluded, "if the voters of Florida ratify the Security Amendment to the state constitution which will permit the legislature to make such appropriations."

Commissioner Van Hyning upon receipt of the last check from the 67 counties, left Sunday night for Washington to confer with the members of the Security board relative to obtaining the federal check for the matching of county funds. Van Hyning is not expected back in his office until the latter part of the week. He will remain in Washington for several more days to work out the final mechanics of the plan.

First Checks—

(Continued from Page 1)

persons who have made application for this form of assistance and that as soon as those persons who are eligible were approved by the district boards the payrolls would be made out and sent to Jacksonville to be paid. He added that these first checks would cover the period from October 1 to the 15 and that the payrolls for this period would be honored even though they were not received until later in the month.

"With the turning over of these federal funds," Unkrich declared, "all the entire vast area and the action of the state commission in closing the season on Dec. 31 has been accepted as a wise one, and a protection to the diminishing supply of game.

"With the heavy picking season of fall vegetables at hand there is a scarcity of negro bean pickers in the Lake region, according to a survey conducted this week. A call has been sent out by Mayor R. K. Harris of Belle Glade and Mayor John Dulany of Pahokee and it is thought that the beginning of another week will bring plenty of laborers.

"What happened to your girl?" "She had her face lifted."

"You don't say. Who do you suspect took it?"

Fungicides—

(Continued from Page 1)

thirty gallons of water should be heated to 118-122 ° F. and the potatoes dipped in this for three minutes. They are then removed, drained and covered for an hour. After this treatment the potatoes should be spread out to dry before being cut.

If facilities for the hot treatment are not available, a cold solution containing one pint of formaldehyde in thirty gallons of water may be used. The potatoes must remain in this solution for one-half to two hours. They are then handled as with the hot treatment.

The ethylene chlorhydrin treatment is given after the seed has been cut. If possible it is best to have the seed cut twenty-four hours before the treatment. A solution containing two quarts of ethylene chlorhydrin in thirty gallons of water should be prepared and the seed dipped in this until thoroughly wet. It is then drained and covered for twelve hours. Planting should then be begun at once.

CELERY: Damping-off in celery seed beds can be largely prevented by treating the soil a week before sowing with liquid formaldehyde. This material should be sprinkled on the soil at the rate of two pounds per 100 sq. ft. It is easily applied with a sprinkling can mixed with water at the rate of one pound formaldehyde to five gallons of water. After the application the soil should be raked to distribute the formaldehyde to a depth of three or four inches. It is safe to sow seed on the soil a week after this treatment has been made.

Celery in the field must be sprayed to prevent early blight. Bordeaux mixture is the most satisfactory spray for this purpose. It may be prepared with somewhat less lime than copper as in a 5-3-50 mixture. The lime may be either the hydrated or burned lime. A high calcium lime is only slightly better than a dolomitic lime.

Spraying should begin as soon as the plants have begun to grow in the field and should continue at weekly intervals until the crop is mature. Ten or twelve applications are required. After the plants are half grown 90 to 100 gallons of Bordeaux should be applied per acre each application.

BEETS, BROCCOLI, CARROTS, CABBAGE, LETTUCE, CAULIFLOWER and TOMATOES: Damping-off of the seedlings of all of these plants can be prevented by the use of Semesan or red copper oxide dusts on the seed. If the seedlings are started in a bed the use of liquid formaldehyde as for celery seed beds would be helpful.

IN THE CIRCUIT COURT FIFTEENTH JUDICIAL CIRCUIT PALM BEACH COUNTY, FLORIDA, CHANCERY NO. 12,756

DIVORCE
ORDER FOR PUBLICATION
Mae Millinor
vs.
Robert Earl Miller, Defendant
IN THE NAME OF THE STATE OF FLORIDA, TO: Robert Earl Miller

* * *

Mr. and Mrs. A. Kaltenbruner have returned to their home from a visit in Hot Springs, Ark.

All-Time Record—

(Continued from Page One)

Democratic nominee runs against C. F. Batcheler, Republican candidate. Democratic candidates for major offices, including Congressmen R. A. Green and Millard Caldwell, are unopposed.

Democratic state headquarters in Jacksonville are this week redoubling efforts to remove all elements of doubt for party victory in the state, from the coming election. Speaking campaigns have been strengthened and augmented by additional orators with efforts in the sectors of the state underway at the same time. And the call is being constantly repeated from headquarters for all Democrats, especially in counties always solidly Democratic, to take an active part in the election by appearing at the polls to the last man in order to safeguard against defeat as threatened by Republican candidates.

10-Inch Rainfall At Fort Pierce In Five Hour Period

On Monday of this week, Fort Pierce experienced the heaviest rainfall that section has had since 1924. During a five-hour period 10 inches of rain fell. In 1924 13 inches of rain fell during a period of 10 hours.

In the back country drainage ditches overflowed roads in almost every direction it was reported. Throughout the residential district of the city water was up to the curb in many places. Motor cars were flooded out and minor accidents were reported as wet brakes failed to respond to the touch of motorists.

Watch the Wind

Doctor—H'm! Your chest's a bit weak. You must avoid draughts.

Patient—Oh! And how about my darts match next Saturday?

BELLE GLADE NEWS

Mrs. Randall Dickingson was hostess to her bridge club Wednesday evening at her apartment in the Harris building. Miss Lillian Teasley won high score award and Mrs. H. C. Tillery, cut prize. Others playing were Mrs. Thomas Evans, Mrs. Frank Currier, Mrs. John Webb, Miss Elizabeth Thompson, Mrs. Arnold, Kirchman and Mrs. Harold Mordoff.

Miss Elizabeth Cox has left for West Gate, where she will take up her duties as assistant teacher in the West Gate elementary school. Mrs. Hollis Henderson Hillier of West Palm Beach arrived Monday morning to replace Miss Cox as fourth grade teacher, here.

Mr. and Mrs. Clarence Neilsen visited relatives in Fort Pierce Sunday.

Robert Kite of Raiford is spending several days at the state prison farm near here.

Boy Scouts of Troop 22, headed by Scoutmaster Ben Sweeting, have been busy this week putting out Human Security Week posters.

Mrs. Frede Anipu and children, Jimmy, Buddy and Donald, accompanied by Mrs. Margaret Bea Der, visited relatives in Fort Lauderdale recently.

Mr. and Mrs. C. L. Pierce and two daughters, Miss Celia Pierce and Miss Peggy Pierce, of Boynton, were guests of Mr. and Mrs. L. W. Jones Sunday.

Mr. and Mrs. Gene Camp announce the birth of a daughter, Sunday, October 11, at a hospital in Dothan, Ala. Mrs. Camp was formerly Miss Amy McGriff of Headland, Ala.

Miss Hortense Skelton of Anderson, S. C., is spending several months as the guest of Mr. and Mrs. J. H. Chamblee.

Mr. and Mrs. Quentin Starling and son, David, of Lake Placid, were week end guests of Mr. and Mrs. Joe Freedlund.

The play, "Hansel and Gretel," will be presented at the school auditorium Friday morning at 10 o'clock by the "Judith Clayton Marionettes."

Mr. and Mrs. George Scarboro have moved into their new apartment recently erected on Avenue "A."

The Home Demonstration club will hold a regular meeting at the Community church Thursday afternoon, the subject of the program will be "Clothing."

Mr. and Mrs. Kenneth Lutz and children have moved into their new apartment recently erected on Avenue "A."

Mr. and Mrs. Max Harrelle announce the birth of a son, Sunday, October 11, at the home of Mrs. Harrelle's parents, Mr. and Mrs. G. I. Evans, here. Mrs. Harrelle was formerly Miss Marie Evans.

Published by order of the Board of County Commissioners, of Palm Beach County, Florida.
(County Commissioners Seal)
A. P. POSTON, CHAIRMAN
J. GEO. BUTLER, Clerk
West Palm Beach, Florida, October 14th, 1936.

23 APPLICANTS ARE APPROVED FOR OLD AGE PENSION

Twenty-three applications for old age assistance were approved and one rejected by the District 10 Board of Social Welfare at its meeting of October 14th in West Palm Beach. Further applications will be considered at a special meeting of the board next Wednesday.

Eligibility of applicants was established by investigation of their age, residence, citizenship and need. Persons eligible for these pensions must be 70 years of age or over; must have resided in the state five out of the last nine years and the past year continuously; must be in need of relief and able to be taken care of in a private home.

Lake Region Will—

(Continued from Page 1)

almost total destruction around the south and eastern lake shore the company started reconstruction of its facilities. The speed and permanence with which plant and lines were rebuilt was no small item in the reestablishment of confidence among the residents of this area.

The extension of interconnected system service into the Glades territory, providing as it does more economical production of electrical energy, will make available to the customers of the company the same rate schedules that are in effect in communities of similar size on the company's transmission system along the East Coast and elsewhere in the state, an official of the concern said.

The present residential combination rate will be replaced by a lower one, effecting a reduction of the minimum charge from $3.00 to $2.75 and the energy charge blocks will be reduced from the present 6c, 3c and 2½c to blocks of 5c, 3c and 2c. The commercial combination rate will be supplemented by a new contract rate providing for a reduction in the demand charge from $4.50 a KW of demand to $3.50 a KW of demand with energy blocks charged from 5c and 3c to 5c and 2c.

These charges, together with lower large power contract rates will mean a saving to present customers now served from the Glades independent system of more than $8,000 per year the official stated. The lower rates will make it more economical than ever for residents to use electric refrigeration, cooking, water heating and other up-to-date modern electric equipment and time saving devices.

WOMAN'S CLUB IN CANAL POINT HOLDS MEETING

The Canal Point Woman's club held its first meeting of the year Monday afternoon at the club room with Mrs. W. A. Adams, the new president, in the chair.

After the usual routine of business the question was brought up for discussion of having a fence built on either side of the West Palm Beach canal from the bridge through the town. It was voted that letters be written to the governor and state highway chairmen and to the chairman of the Everglades Drainage board requesting their co-operation.

A suggestion was made that the business and social meetings be combined into one monthly meeting. The club will vote on this at the next meeting. All members are urged to be present.

A donation will be sent from the club to the Children's Home in Jacksonville at an early date.

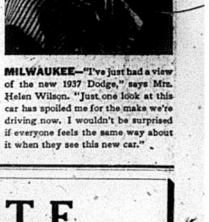
Mrs. W. A. Adams and Mrs. J. W. Barrett entertained the following members and guests at Miller's Drug store: Mesdames A. L. Pope, W. P. Pope, Barrett, Goolsby, H. B. Miller, Harrington, Poole, Perry and Dunahugh.

The hostesses for the next meeting, October 26, will be Mrs. J. S. Harrington and Mrs. E. W. Barwick.

BROTHER OF CANAL POINT MAN IS SAN JOSE AVIATOR

Dade McClellan, 23, popular young aviator, who formerly resided in Miami, is now making his home in San Jose, California. He has more than 75 hours in the air most of which have been flown over Miami. He has attained his flying license and is now seeking his transport's license. Young McClellan is a brother of Demp McClellan of Canal Point.

PREVIEWS NEW MODEL



MILWAUKEE—"I've just had a view of the new 1937 Dodge," says Mrs. Helen Wilson. "Just one look at this car has spoiled me for the make we're driving now. I wouldn't be surprised if everyone feels the same way about it when they see this new car."
